

# Governor Executive Order

## State Entry

To track and reduce the spread of COVID-19, each person 18 years of age and older entering Utah must submit an electronic State of Utah Travel Self-Declaration Form of health symptoms and recent travel history. The Utah Department of Health will use this data to understand the risks of those entering our state. Travelers will be informed of current directives and local orders and know to follow them.

Vehicle travelers and semi truck drivers crossing into Utah at major roadway entry points will receive a text alert\* to fill out an online Self-Declaration form.

Travelers whose final destination is Utah through Salt Lake International Airport will receive a postcard with a QR code, web address and directions to fill out an online Self-Declaration form.

# entry.utah.gov

- 1 Traveler fills out electronic form and provides contact, health and recent travel information to the state of Utah
- 2 A verification message will automatically be sent to the traveler upon successful completion
- 3 A confirmation email directs traveler to Local and State Orders on coronavirus.utah.gov

\*The form should be filled out when safe to do so. Do not text and drive.
